SER-2002-01

Descriptive Title:
Enhancements to the Global Change button found in the Serials Module.

Concise Description of Functionality Desired:
We would like to see the Global Change button enhanced by adding the following functionality:

• Allow staff to select a set of items to change in the Serials Module
• Allow staff, with appropriate authorization, to be able to delete a selected set of items in the Serials Module
• Add additional fields that can be changed using the Global Change function
• Allow staff to select a set of items to Arrive in the Serials Module.

161 Votes  10 Development points
In addition to enhancement requests, the Sys Admin Group identified five areas for more extensive development:
- Reporting
- Staff User Privileges
- Aleph ADM Client
- Documentation on GUI Services
- User Profiles (Z61)

The Steering Committee will be considering these requests for special projects with Ex Libris
Parting Thoughts

- Cataloging Received 770 votes (over half) and used 65 development points (2/3)
- Except for Cataloging, no enhancement beyond the first two from any group made it
- It is not clear how institutions allocate their voting points
- Jane Aitkens will be an excellent coordinator
