## Primo Program Track - Eluna 2007

### Wednesday, June 6th

- **3:30 - 5:00 pm - Primo Product Feature**
- **5:00 - 6:30 pm - Primo User Interface**
  - Jody Combs, Dale Poulter, Vanderbilt University; Janet Arth, University of Minnesota
  - ABST: Staff from Vanderbilt and the University of Minnesota will demonstrate the Primo end user interfaces that will go into production at their institutions this summer. As they review Primo features, they will discuss the decisions that have been made in the course of implementation, and how usability testing has influenced the process.

### Friday, June 8th

- **8:30 - 10:00 am - Primo Development Partnership and Primo Configuration**
  - Janet Arth, Christina Meyer, University of Minnesota; Dale Poulter, Jody Combs, Vanderbilt University
  - ABST: This session will include presentations on:
    - The Primo development partnership: how it's worked and why it's valuable from Vanderbilt's and Minnesota's point of view.
    - Primo Configuration: using the Primo Back Office to configure
      - extract and normalization of Dublin core data
      - extract and normalization of ALEPH MARC and Sirsi Unicorn MARC data
      - the Primo user interface
