Outline

- HathiTrust background
- HathiTrust APIs
- SFX development
- Future development
- Rollout plans

HathiTrust

- collaboration of the several universities to establish a repository to archive and share their digitized collections.

HathiTrust Members

- Indiana University
- Michigan State University
- Northwestern University
- The Ohio State University
- Penn State University
- Purdue University
- The University of Chicago
- University of Illinois
- University of Illinois at Chicago
- The University of Iowa
- University of Michigan
- University of Minnesota
- University of Wisconsin-Madison
- University of Virginia
- California Digital Library
- University of California Berkeley
- University of California Davis
- University of California Irvine
- University of California Los Angeles
- University of California Merced
- University of California Riverside
- University of California San Diego
- University of California San Francisco
- University of California Santa Barbara
- University of California Santa Cruz

Goals

- To build a reliable and increasingly comprehensive digital archive of library materials
- To dramatically improve access to these materials
- To preserve the materials with electronic representations.

Goals (continued)

- To stimulate efforts to coordinate shared storage strategies among libraries
- To create a technical framework that is both centralized and open

HathiTrust numbers

- 5,742,251 volumes
- 926,233 public domain volumes (approximately 16% of total content)

- 2,009,787,850 pages
- 214 terabytes
- 68 miles
- 4,666 tons
