Sarah Bellim was a noted brain surgeon in Noggin, MA. In 1949 she married Denton Fender, an auto mechanic.

Collection is arranged into five series: Diaries (1939-1940), Surgery Case Books (1946-1959), Professional Correspondence (1943-1974), Family Correspondence (1952-1977), and Photographs.

The bulk of the collection documents Bellim’s medical career as a brain surgeon. The documentation of her family life includes correspondence with her husband and her wayward daughter Mia Kulpa, and approximately 200 family photographs.

Parent of Sarah Bellim Photographs
Gift of Q. Cumburr, 1991

Processed by: Rusty Staple, Archivist
